There is more than one pathway to success:
The IB Career-related Programme
at Greenfield Community School

Looking for a school that will give you practical experience and vocational skills?

Do you want a Practical Career-related Education during your last two years at school?

Do you want to choose from 11 subjects; the most offered by any IB Career-related Programme (IBCP) school in the world.

Do you want to study at a school that is one of five in the world that is fully authorised to offer all four IB Programmes?

Join Greenfield Community School (GCS), an International Baccalaureate (IB) World Continuum School, which was founded in 2007 in Dubai Investments Park.

IBCP students learn in a practical environment with emphasis on continual assessment and structured learning of important life skills. Students also participate in work placements at local companies, which give them important access to a 'real-life' working environment. This qualification is recognised by many Universities across the world; the University and Colleges Admissions Service (UCAS) in the UK and it also meets the entry requirements for many degree courses.

The IBCP was launched in 2009 to provide students aged 16 to 19 years with an alternative career pathway. It combines an 'Approaches to Learning' course (ATL) and vocational experiences at local companies with the demanding IB Diploma Programme (IBDP).

Centrally located in Dubai Investments Park and just a few minutes from the Green Community, GCS is currently in its fifth year of offering this innovative programme, and was one of two pilot schools selected by the IB to launch the IBCP in the UAE. GCS offers more IBCP subject choices than any other school in the world.

About the IBCP and IBDP

The IBCP is a flexible programme that gives students options to enter the workplace directly, or attend universities and colleges. The IBDP is a universally recognised, academically rigorous university preparation-programme. Both programmes feature a balanced curriculum that helps develop well roundedness in students through a combination of academic rigour and engagement in creativity, action and service.

Quick Facts

We boast a 100% success rate!

89% students have chosen to go to University and are currently studying a variety of Bachelors' Courses at the following Universities: Greenwich University London, University of Miami Florida, The Arts Academy San Francisco, University of Applied Science Amsterdam, Carleton University in Canada, UPEI Canada, Leeds Metropolitan University UK, Hertfordshire University UK, Emirates Hospitality Academy Dubai, Murdoch University Dubai, University of Middlesex Dubai, Manipal Dubai, University of Westminster London

11% of students having completed the IBCP course, have chosen to go directly into employment and are currently studying additional courses within their chosen field of employment.

The **Business and Technical Education Council (BTEC)** qualification is a career-related qualification, built to match the needs of employers and students and allow progression to university. This additional qualification provides a more practical, real-world approach to learning alongside the theoretical background provided by the IB Diploma courses. BTECs have been around for 42 years and are recognised by schools, colleges, universities, employers and professional bodies in over 100 countries worldwide. BTEC courses are currently offered by 650,000 schools worldwide and have over 3.8 million students enrolled each year.

In 2015/16, GCS is offering BTEC Level 3 Diploma Courses in the following subjects as part of the IB Career-related Programme, with a choice of the following **11 subjects**:

Business	Art	2D Graphic Design
3D Product Design (DT)	Media	Photography
IT – Web page design	Textiles	Jewellery Design
Sculpture	Interior Design
