May 13, 2015

Dear Parents,

It is our pleasure to announce that the Knowledge and Human Development Agency **DSIB Inspection Report for Greenfield Community School** has been released, and can be found on the KHDA website on the following link:

http://www.khda.gov.ae/En/Directory/SchoolProfile.aspx?SID=350

The report is a comprehensive audit of the school, identifying the **many strengths of the school** and making recommendations for us to focus on in our cycle of school improvement. We are delighted to confirm that GCS has been given a rating of **'Good'** and to see that the DSIB has recognised that there have been significant moves forward in the **quality of teaching and learning, attitudes and behaviour, attendance and punctuality, health and safety and the leadership and management of the school**. I was particularly pleased that we were rated **Outstanding** for Health and Safety across all areas of the school and that **our innovative curriculum for Grades 11 and 12** was also rated as **Outstanding.**

The report has identified areas in which we can work on, these align with our self-evaluation. We are committed to building on the encouraging inspection result that recognises the strong foundation of the International Baccalaureate Curriculum.

Please do read the report: it is an informative and affirming document. If you have any questions, please contact the school.

Finally, we will be investing in excess of **AED 5,000,000** in campus upgrades during the coming months, the main ones include:

- The Auditorium will be upgraded with a new stage, seating, sound and lighting system.
- The Kindergarten playground will receive new equipment.
- The Sports Hall will benefit from new basketball hoops, acoustic panels and flooring.
- The large sports pitch will be resurfaced.
- Information Technology will be upgraded throughout the school.

We remain committed to providing your child(ren) with a world class education and will continue our cycles of improvement and investment.

I thank you for for your support.

Andrew Wood
Principal
